FOR IMMEDIATE RELEASE

**THE AIRLINER PRICE GUIDE LAUNCHES ITS
VALUATION PUBLICATION ON THE INTERNET**

The Airliner Price Guide, providing hard copy aircraft valuation services to the aviation industry since 1985, has launched its aircraft and engine valuation publication online.

The online website is located at www.airlinerpriceguide.com and features all of the contents within the hard copy of the Airliner Price Guide. “Moving the publication to a web-based platform will enable frequent aircraft and engine value updates”, said Mr. Quentin Brasie. Mr. Quentin Brasie is the Chairman and CEO of Brasie Inc. and the owner and publisher of the Airliner Price Guide. Mr. Brasie went on to state that, “The frequent updates will allow our subscribers to have immediate access to ‘up to the minute’ aircraft and engine values required in this rapidly changing aviation environment”.

Future website offerings for the Airliner Price Guide include: Future Value Forecasts, Historical Value Performance, and the Aviation Portfolio Tracker which will enable continuous value surveillance of multiple aircraft and engines. “The Airliner Price Guide offers a unique historical library of values dating back to 1985. Our clients have requested these historical values be placed online; the historical values will offer a unique electronic product detailing aircraft value performance over time”, said Mr. Brasie.

For more information concerning the Airliner Price Guide, please call our toll free number 877-224-9190, outside the US call 1-540-428-4388, or email us at info@airlinerpriceguide.com. Please visit our website: www.airlinerpriceguide.com.
